

Pixel Puzzles

Pixel puzzles are logic puzzles that use number clues around a grid to create an image. Each number clue indicates a group of contiguous squares. Between each group there is at least one empty square. The clues are already in the correct sequence. There is only one correct solution for each puzzle. Puzzles can be solved using logic and the clues provided. There is no guesswork needed.

"Face" (5x5)		1		1	
	5	1	3	1	
		1	1	1	5
5					
1 1 1					
5					
1 1
